Procedures for Opening or Re-opening a School

When a church or a group of churches decide to open a church school, it is desirable that a great deal of careful planning precede the actual beginning of the school. The following is a list which can serve as a guideline in making the procedure as smooth as possible.

1. The local church(es) should vote in a business session that they desire to operate a school. This step may be preceded by a study of the needs and a preliminary study of probable financial support and enrollment.
2. Permission should be granted by the Iowa-Missouri Conference Board of Education to operate a school.
3. A school board should be elected by the church or appointed by the church board.
4. A school constitution should be written and approved by the church.
5. A request should be made to the Iowa-Missouri Conference to find a teacher or teachers for the school. If at all possible, this request should be made by January of the year the school will open.
6. A budget should be approved by the school board and a copy sent to the Iowa-Missouri Conference no later than April 1 of the year the school will open.
7. The building or room(s) to be used should be prepared and equipped for classroom use. It is desirable that this be completed at least two months before school is scheduled to begin. The Union and Conference Education Departments need to inspect the facility.
8. The pastor and the board should arrange to visit every family with school-aged children.
9. All books and supplies should be ordered early enough to have on hand before the school year begins
10. As soon as is possible, the teacher(s) should start getting acquainted with the families of the church.
